**\*\* This announcement is being sent to all IAP Division Presidents, Secretaries, Council and Executive Committee members. Please distribute where appropriate \*\***

Dear Jan,

As a benefit to members of all Divisions and Assemblies, we have recently introduced a number of ways to support pathology educational activities around the world. Here are some that may be helpful for you:

### **Promote your educational event**

We would be happy to help promote your educational event at no cost through social media and our website. All of this is done through our Educational Events and Resources Registry. To register your event, [click here](#) or on the URL below to submit your educational meeting or event online:

<https://www.iapcentral.org/current-activities/events-and-resources-form>

### **Apply for funding**

Up to \$3500 USD (minimum \$2400 USD) is currently available for Divisions and Assemblies for [Education Meeting support](#), and for Division members who are applying for support as [IAP Ambassadors](#). Preference is given to underserved Divisions who have difficulty in obtaining funds from other sources and/or sponsorship from other Divisions and Assemblies.

To apply, or to learn more about this funding opportunity, [click here](#), or on the URL below.

<https://www.iapcentral.org/current-activities/forms-and-guidelines/ambassador-and-event-funding-application>

### **Free Web Hosting**

We can now offer free web hosting for Divisions and Assemblies on a flexible, easy to use website platform. Please contact us for details.

### **Other membership benefits**

Your membership helps fund educational programs that are available to your division, and the pathology community around the world. In addition, members of regional IAP Divisions are automatically members of the IAP, and are entitled to:

- **Discounted rates to other IAP Division Meetings** including the [USCAP annual meeting](#). Upcoming meetings can be found on the main page of this website, social media, and our [Educational Events and Resources Registry](#) mentioned above.
- **Discounted subscriptions to USCAP journals** [Modern Pathology and Laboratory Investigation](#).

- **Bursaries for pathologists and trainees** to attend upcoming IAP Biennial international meetings, bringing pathologists together from around the world. Bursary opportunities to attend the [Cancun 2024](#) will be announced in January.
- **Opportunities to participate** in international committees and working groups dedicated to the advancement of Pathology through educational exchanges worldwide.

Please let us know if you have any questions, or would like further information.
